Chairman's Message

Since the Association's founding in 1964, its mission has been to promote communication and collaboration among member companies for the overall advancement of the life insurance industry. The objectives of the Association also include supporting the competent authorities in implementing policies, protecting consumer rights and the public interests, and encouraging economic development and growth in Taiwan. Consequently, the publication of industry statistics has been one of the important annual functions of the Association. This issue is compiled for reference purposes; further comments or questions are welcome.

Throughout 2023, the total premium income of life insurance industry amounts to NT\$2,188.0 billion, a yearly decrease of 6.27% from last year's NT\$2,334.3 billion; of which, the first-year premium is NT\$671.4 billion, a yearly decrease of 13.13%, whereas the following-year premium amounts to NT\$1,516.6 billion, a yearly decrease of 2.88%. Meanwhile, the total premium income of unit-linked (investment) insurance contracts is NT\$349.0 billion, a 19.51% decrease from last year's NT\$433.6 billion; of which, the first-year premium is NT\$256.5 billion, a yearly decrease of 25.95%.

The insurance coverage enjoys a steady growth to reach 263.53%; whereas the solicitation channels of the new contract premium source as the following: 47.66% from traditional insurers' salesmen, 36.91% from bancassurance, the rest 15.44% from traditional brokerage and agency. Till the end of year, the total assets of life industry reaches NT\$34,910.2 billion, a yearly growth of 3.83% from last year's NT\$33,623.8 billion, and the net-income after tax reaches NT\$88.1 billion.

In terms of products, Taiwan will begin applying International Financial Reporting Standard 17 (IFRS 17) in 2026. In conjunction with this, the Financial Supervisory Commission (FSC) is therefore integrating the reserve deposit regulations for direct underwriting by insurance enterprises, as well as assumed and ceded reinsurance services handled by reinsurance enterprises; elevating the level of reserve deposit regulations related to assumed and ceded reinsurance services; and clearly regulated the reserve deposit allocation methods for professional reinsurance enterprises. As part of this, the FSC has amended the Regulations Governing the Setting Aside of Various Reserves by Insurance Enterprises, the Regulations Governing Financial and Business Operations of Professional Reinsurance Enterprises, and the Regulations Governing Insurance Enterprises Engaging in Operating Reinsurance and Other Risk Spreading Mechanisms. In order to fully protect policyholders' rights and interests, and to strengthen development of the insurance market, the FSC has also revised the Points of Note When Auditing Life Insurance Products, the Points of Note for Separate-Account Investment-Linked Insurance Custodian Institutions and Investments, and the Compliance Matters for Disclosure of Information on Investment-linked Insurance. These amendments stipulate that investment-linked insurance products are completely prohibited from being linked to leveraged or inverse ETFs; and they specify what disclosures are required in insurance product manuals, introductions and periodic reports on policy value, as well as related warnings. In order to strengthen insurance enterprises' insurance product pre- and post-sale risk controls, and to promptly review sales strategies and adopt countermeasures in response to changes in the market environment, thus enabling insurance enterprises to prudently handle insurance product submission matters and ensure steady operations, the FSC has also revised the Regulations Governing Pre-sale Procedures for Insurance Products. In order to strengthen the quality of the self-owned capital of Taiwan's insurance enterprises and ensure their stable implementation of the new generation solvency system for insurance industry (Taiwan-Insurance Capital Standard) by

制性資本(Tier 1 Unlimited, T1U)、第一類限制性資本(Tier 1 Limited, T1L)及第二類資本(Tier 2, T2)，並明定所發行之資本工具應適用資本溯源及資本對稱性之規定；為提高國人保險保障額度，金管會修正「小額終老保險商品相關規範」，將傳統型終身人壽保險主契約保額上限由新臺幣七十萬元提高至新臺幣九十萬元，有效契約限制件數由三件放寬為四件。

在通路面，為保障消費者權益及強化保險業對於委外作業之控管，金管會修正「保險業作業委託他人處理應注意事項」，明定保險業作業委外內部控制作業之處理程序，應載明作業委外之政策及原則、委外事項控管之權責分工、委外程序等事項，並明定保險業應依風險基礎方法管理委外風險；為精進保險業者之行政作業效能，金管會修正「保險業招攬及核保理賠辦法」，明定保險經紀人或保險代理人業依相關法定對客戶辦理電話、視訊或遠距訪問之事項者，保險業免再就相同事項進行電話、視訊或遠距訪問。

國際上於 112 年採用 IFRS 17，我國亦將於 115 年接軌，為加強國內保險業與其他產業及國際企業間財務報告之可比較性，同時引導壽險業調整商品結構，提高保障型商品及高齡化商品銷售，乃刻不容緩之議題；再者，美國維持高基準利率以抑制通膨，對於保險商品帶來之衝擊，以及全球金融市場波動，壽險業該如何因應並維繫保險業務穩定發展，將為我業界共同努力之方向，冀群策群力凝聚共識，為壽險業營造良好生存環境及完善社會大眾保障體系架構，以達成安和樂利民生社會之理想境界。

中華民國人壽保險商業同業公會
理事長

2026, the FSC revised the Regulations Governing Capital Adequacy of Insurance Companies. The amendments stipulate that when calculating the capital adequacy ratio for insurance enterprises, self-owned capital must be divided into Tier 1 Unlimited (T1U), Tier 1 Restricted (T1L), and Tier 2 Capital (Tier 2, T2). The amendments also specify that issued capital instruments must be subject to the provisions of capital traceability and capital symmetry. In order to increase Taiwanese people's insurance coverage, the FSC revised the Micro-Whole-Life Insurance Product Regulations, increasing the upper limit for main-policy coverage in traditional whole-life insurance products from NT\$700,000 to NT\$900,000, and relaxed the limit on the number of valid policies from three to four.

Turning to channels, the FSC has amended the Points of Note When Outsourcing Insurance Industry Operations. The FSC's amendments are aimed at protecting consumer rights and strengthening insurance enterprises' control over outsourced operations. Given these aims, the amendments specify aspects of outsourcing operations that must be stated within insurance enterprises' handling procedures for outsourced internal control operations, such as policies and principles for outsourcing operations; division of responsibilities for outsourcing control; and outsourcing procedures. The amendments also stipulate that insurance enterprises must manage outsourcing risks based on a risk-based approach. In order to improve the administrative performance of insurance enterprises, the FSC has revised the Regulations Governing Business Solicitation, Policy Underwriting and Claim Adjusting of Insurance Enterprises. As amended, the Regulations stipulate that if an insurance broker or agent has conducted a telephone, video, or remote visit to a customer in accordance with laws and regulations, the insurance enterprise is exempt from conducting another telephone, video, or distant visit for the same matter.

Internationally, IFRS 17 was adopted in 2023; Taiwan will follow suit in 2026. There is a pressing need to strengthen comparability of the domestic insurance industry's financial reports with those of other industries and international enterprises, and to guide the life insurance industry to adjust its product structure and improve sales of protection-type insurance products and elderly insurance product. Furthermore, as the United States has been maintaining high interest rates to curb inflation, the impacts on insurance products and global financial market volatility. Under such circumstances, how the life insurance industry reacts to the changing environment and maintains the stable development of insurance businesses will be the issue for the insurance industry to jointly endeavor and make headway.
